When in song mode, you can also change the tempo, the velocity, which note will be triggered next and many other parameters. You can add any number of Song sections and then re-arrange their order by drag and drop. You can also edit the existing song and "kick" in a new section of any length. This can be useful to create a re-written version of an existing song. In addition, you can load a custom "kick" (sequence of notes) and edit it. An audio file can also be used as a "kick" to trigger any sequence of notes or chords in the song. You can also change the length and the starting point of each note or chord and finally save the sequence. You can save and load any number of sequences. Edit mode To edit a section or an entire song, click on the section or song title and then click on the EDIT button. This will open the "Edit" dialog. You can change many of the parameters of the selected section. These include: -Tempo- -Chord- -Gain- -Channel- -Velocity- -Tempo-Increase- -Pitch-Adjust- -Beam-Width- -Phaser-Level- -Pan- -Clipping-Threshold- -Expression- -Velocity-Lock- -Velocity-Fine-Tuning- -Attack- -Duration- -Soft-Release- -Release-Pan- -Defer- -Hi-Hat-Volume- -Snare-Volume- -Snare-Tremolo- -Chorus-Level- -Chorus-Dry- -Bass-Gain- -Channel-Off/set- -EQ- -Amplifier-Volume- -Attack-Time- -Rise-Time- -Threshold- 77a5ca646e
